## EDUCATION AND TRAINING

---

### BS in Information Technology

*University of gujrat* [ 15/08/2019 – 15/09/2023 ]

City: Gujrat | Country: Pakistan | Website: [www.uog.edu.pk](http://www.uog.edu.pk)

## DIGITAL SKILLS

---

### Professional Skills

MERN Stack (MongoDB, ExpressJS, ReactJS, NodeJS) / React Native / Vue.js (2 &3) / Multiple PHP (Laravel) Projects / GraphQL / Ruby on Rails / NestJS / Flutter Basic Skills / Python ( ML: keras, tensorflow etc.) / Bootstrap, Tailwind CSS, Ionic / Javascript / JQUERY/AJAX

### Knowledge

Git & GitHub / MySQL / PostgreSQL / WordPress / Linux

### Soft Skills

Communication Skills / Customer Service / Presentation Skills / Adaptability/Flexibility / Positive Attitude / Time Management

## LANGUAGE SKILLS

---

**Mother tongue(s):** Urdu/Hindi/Punjabi | English

## PROJECTS

---

### Service Provider (SaaS)

**Technologies:** Vue.js, Laravel, MySQL

- Built multi-tenant SaaS with unique views per tenant.
- Implemented admin-controlled roles and permissions.
- Developed scalable architecture ensuring data isolation.

### Hazrify

**Technologies:** React, NestJS, MySQL, and GraphQL.

- Developed attendance tracking with check-ins and leave management.
- Implemented real-time attendance updates and reporting.
- Designed role-based access control for admins and employees.

### LumpyCare

**Technologies:** ReactNative, Firebase, map and GraphQL,

- Developed a mobile app for detecting lumpy skin disease using image recognition.
- Integrated a **Convolutional Neural Network (CNN)** model for disease detection.
- Managed user data with **Firebase** and connected the app to the model via GraphQL.

### Bugzilla

**Technologies:** ROR, React, Postgresql

- Developed a role-based system with Manager, Developer, and QA functionalities
- Specs

### Point of Sale

**Technologies:** Vue.js, Laravel, RESTful APIs, MySQL

- Developed a POS system with inventory management, billing, and reporting features

### Flour web

**Technologies:** ROR, haml, Postgresql

- Optimized synchronous queries for improved performance.

- Added new features and enhanced existing functionality.
  - Identified and resolved bugs in the system to improve stability.
- 

*I am open to relocating for job opportunities.*
